Tangier, Aug. 16.

WE have placed our great Cheſt containing 4500 Tuns, to our ſatisfaction. This morning Vice-Admiral *Herbert* brought in a Dutch Ship, being a Prize taken by the Turks, who deſerted her; ſhe is laden with Deal Boards and Firr Timber. Yeſterday we received advice from *Tetuan*, that our Frigats which are cruiſing within the Narrow had put aſhore and burnt an *Algierine* of 26 Guns. The Moors are retired, part of them are encamped near *Alaraebe*, and the Alcaide is at *Alcazar*.

Tangier, Aug. 28. We have been viſited by a Levant Storm, which has ſomewhat diſturbed us in proſecuting the work of the great Cheſt, but no weather on that quarter we had ſecured can give us any apprehenſions. The Dutch Veſſel mentioned in our laſt, proves to have been deſerted by her own men, upon her being chaced by one of our Frigats. The news of the ſtranding an *Algierin* on the Coaſt of *Tetuan* is confirmed. The Turks eſcaped aſhoar, leaving a Train behind them for the blowing up of the Ship, which God be thanked took not effect till our men had left her.

Madrid, Oct. 1. The 27th paſt in the Evening the King, attended by many of the Grandees, went to *Aranguez*, and there met the Queen his Mother, who came from *Toledo*; and next day their Majeſties arrived here. The *New Spain* Fleet, in all about 20 Sail, arrived the 24th paſt in the Bay of *Cadiz*, in 47 days from the *Havana*; it is ſaid, in general that they are very rich, and that they have brought three Millions of Pieces of Eight for the King.

Laſt night Sir *Henry Goodrick* Envoy Extraordinary from His Majeſty of *Great Britain*, arrived here.

Genoua, Oct. 4. The 29th paſt arrived here 3 French Men of War, with a Fire-Ship, from *Gagliari*, of the Squadron of Monſieur *Tourville*, who is gone, with 5 or 6 of his biggeſt Ships, to *Breſt*. The Commander of thoſe arrived here pretends the Caſtle ſhould anſwer him Gun for Gun, which the Senate will not conſent to, ſo that hitherto the French Ships have not ſaluted the Caſtle. The 30th paſt arrived here this States Convoy, in 9 days from *Cadiz*, by which we have advice, that the *Centurion* and *Nonſuch* Frigats are coming hither.

Copenhagen, Oct. 14. The Ratifications of the Peace between this Crown and *Sueden* are exchanged; and it's ſaid the Marriage of the King of *Sueden* with our Kings Siſter is concluded, and will be ſpeedily conſummated.

Hamburg, Oct. 17. The King of *Denmark* having accepted the Mediation of the Princes of *Lunenburg*, they ſent three Deputies to meet thoſe of his Majeſty at *Wilſau*, and after ſeveral conferences, the *Lunenburg* Miniſters, came back and acquainted the Senate that the King of *Denmark* abſolutely inſiſted upon this Cities doing him Homage, and upon their engaging never to act againſt his Intereſts; and this morning they returned again to the King, with the Anſwer of the Senate, which was, That they are reſolved not to ſubmit to the Homage required, but offer 3 or 400000 Crowns to ſatisfie that Kings pretentions, and ſecure them from all future diſturbances on this account, which it is not believed the King will accept of, and therefore we muſt expect a Siege; our reliance is upon the reſolution of the Burghers, and the aſſiſtance of the Princes of *Lunenburg* who are firm to us. Yeſterday it was proclaimed in the Daniſh Camp (which we can ſee from our walls) that all Women and Children ſhould preſently leave it. The Danes endeavour to frighten us with their Artillery, with which they ſay they will in 8 days lay us in aſhes. They have indeed 54 whole Cannon, and Mortar pieces each drawn by 24 horſes. A Bridge of Boats is making over the *Elbe*, above this City, for our communication with the Princes of *Lunenburg*; one of their beſt Regiments of 1200 men came hither this day, which makes our Gariſon already 9000 men, and Monſieur *Chauvet*, General of the Duke of *Zell*'s Forces, is here.

Utrecht, Oct. 20. This day the Duke of *Monmouth* went hence for *Amſterdam* and *North-Holland*, and will be back here in 10 or 12 days.

Amſterdam, Octob. 20. The *French* Conſul here has not been wanting to apply himſelf to thoſe that have any ſhare in the Government of this City, to diſpoſe them to favour the Intereſts of the King his Maſter, and to oppoſe the Allyance that is treating with *England*. When the States of *Holland* meet again, which will be on the 15th of the next Month, we may ſee what Iſſue things will have. Thoſe States, before their receſs, ordered their Deputies to move in the Aſſembly of the States General, that a Succour of 300 men might be ſent to *Surinam*, to put that Colony in a condition to ſecure it ſelf from the *Indians*. The Treaty of Commerce between *Sueden* and this State has been ſent to the ſeveral Provinces for their approbation. The States General have reſolved to write to the Elector of *Brandenburg*, to let him know that they are willing to enter into Conferences with him, concerning his Electoral Highneſſes pretentions upon them, and that their Miniſters ſhall meet with his, either here or at *Berlin*.

Hague, Oct. 20 The Sieur *Van Beverning*, and the Sieur *Van Haren*, the Ambaſſadors of this State at *Nimeguen*, are returned hither, that Aſſembly being quite broken up. They have made their report, to the States General, of all that has been tranſacted there during their Embaſſy; after which they were likewiſe with the Prince of *Orange*. The Reſident of *Hamburg* here has prevailed to have the
